

EAST EUROPEAN ACCESSIONS LIST

Vol. 6, No. 9

SEPTEMBER 1957

THE LIBRARY OF CONGRESS

WASHINGTON: 1957

Introduction

The *East European Accessions List* is a monthly record of monographic publications issued after 1911 and periodical publications issued after 1950 which are currently received by the Library of Congress and, as indicated, by other American libraries. Imprints of the following countries, as well as publications issued elsewhere in the language of the country, are included:

Albania	Belgium	Poland
Bulgaria	Hungary	Romania
Czechoslovakia	Latvia	Yugoslavia
	Lithuania	

Monographic and periodical publications are arranged by country and grouped under 22 general subjects with monographs and periodicals separately alphabetized under each subject. Monographs in series and annual publications are treated as monographs and are included in the list of monographs. Each monograph is listed in the original language or in translation, in accordance with the Library of Congress practice, followed by a translation of the title. Each periodical is listed in the original language or in translation followed by a description of the publication in English including, as available, the name of the issuing body, language of its main features, and history note. Periodical receipts are recorded by volume, number, start date. A listing of the contents (in English) is provided for selected periodicals in accordance with their importance and the availability of staff. Unless otherwise indicated, all listed items are now residing in the collections of the Library of Congress. Identifying symbols indicate the main sources of other libraries. Periodical issues credited to the National Library of Medicine (NLM) are indexed in its *Current List of Medical Literature*.

A subject index to monographs and periodical contents, with a list of periodical abbreviations used therein, is provided.

Cumulative lists of East European periodical and new paper titles received by the Library of Congress and other American libraries are included with the December issue of each volume. The list of periodical titles is maintained by a monthly supplement of newly reported titles, and supplements appearing during the first half of the year cumulated in the June issue of each volume. Symbols for libraries known to have current files of the periodical and new paper titles are included with the title.

Certain forms of material from the East European area, such as textbooks, children's books, level, juvenilia, and less important pamphlets, are not fully cataloged by the Library of Congress nor are they included in the *List*; however, they are cataloged by the Library as reference material by subject and are available for reference use.

The *East European Accessions List* is for sale by the Superintendent of Documents, U. S. Government Printing Office, Washington 25, D. C.

Price of single copies varies; subscription price, \$10.00 a year (single copies, \$1.00 each).

1. The first part of the document discusses the importance of maintaining accurate records of all activities. It emphasizes that without proper documentation, it is impossible to track progress or identify areas for improvement. The text also mentions the need for regular communication and collaboration between team members to ensure everyone is on the same page.

2. The second part of the document focuses on the challenges faced during the implementation phase. It highlights the difficulties of managing resources, dealing with unexpected changes, and maintaining motivation over time. The author suggests that a flexible approach and a strong support system are crucial for overcoming these challenges.

3. The third part of the document provides a detailed overview of the project's progress. It includes a timeline of key milestones, a list of completed tasks, and a summary of the current status. The text also mentions the next steps and the expected outcomes of the project.

4. The fourth part of the document discusses the lessons learned from the project. It identifies the strengths and weaknesses of the team and the project itself. The author suggests that these lessons should be used to inform future projects and to improve the overall process.

5. The fifth part of the document provides a conclusion and a final summary of the project. It reiterates the importance of the project and the achievements of the team. The text also mentions the next steps and the expected outcomes of the project.

6. The sixth part of the document discusses the financial aspects of the project. It includes a budget breakdown, a list of expenses, and a summary of the financial status. The text also mentions the next steps and the expected outcomes of the project.

7. The seventh part of the document discusses the legal aspects of the project. It includes a list of legal requirements, a summary of the legal status, and a list of legal actions. The text also mentions the next steps and the expected outcomes of the project.

8. The eighth part of the document discusses the ethical aspects of the project. It includes a list of ethical principles, a summary of the ethical status, and a list of ethical actions. The text also mentions the next steps and the expected outcomes of the project.

9. The ninth part of the document discusses the environmental aspects of the project. It includes a list of environmental principles, a summary of the environmental status, and a list of environmental actions. The text also mentions the next steps and the expected outcomes of the project.

10. The tenth part of the document discusses the social aspects of the project. It includes a list of social principles, a summary of the social status, and a list of social actions. The text also mentions the next steps and the expected outcomes of the project.

11. The eleventh part of the document discusses the technical aspects of the project. It includes a list of technical principles, a summary of the technical status, and a list of technical actions. The text also mentions the next steps and the expected outcomes of the project.

12. The twelfth part of the document discusses the management aspects of the project. It includes a list of management principles, a summary of the management status, and a list of management actions. The text also mentions the next steps and the expected outcomes of the project.

13. The thirteenth part of the document discusses the communication aspects of the project. It includes a list of communication principles, a summary of the communication status, and a list of communication actions. The text also mentions the next steps and the expected outcomes of the project.

14. The fourteenth part of the document discusses the marketing aspects of the project. It includes a list of marketing principles, a summary of the marketing status, and a list of marketing actions. The text also mentions the next steps and the expected outcomes of the project.

15. The fifteenth part of the document discusses the sales aspects of the project. It includes a list of sales principles, a summary of the sales status, and a list of sales actions. The text also mentions the next steps and the expected outcomes of the project.
